Texas Essential Knowledge and Skills (TEKS) Alignment to easyCBM® Reading

P. Shawn Irvin, Kraig A. Wray, Julie Alonzo, and Gerald Tindal
University of Oregon

With special thanks to the staff of Tyler ISD, Tyler, TX

Background

- In the summer of 2012, experienced teachers from a school district in Texas were recruited to participate in a formal study of the alignment between the TEKS and easyCBM.
  - 2 teachers per grade participated in the math alignment study (average of 16 years teaching experience)
  - 2 teachers per grade participated in the reading alignment study in grades K-5; 1 teacher per grade participated in the reading alignment study in grades 6-8 (average of 18 years teaching experience)
- The results of the alignment study in the content area of reading are presented here, with overall alignment presented first, then more detailed results, by grade.

easyCBM® Reading Alignment to TEKS by Grade

Grade	K	1	2	3	4	5	6	7	8
Prop. Aligned	27/57	66/79	53/63	45/57	32/40	30/41	18/35	18/34	20/35
%	47%	84%	84%	79%	80%	73%	51%	53%	57%

Alignment results are presented by grade for the battery of easyCBM® reading benchmark measures available for initial administration. For example, Kindergarten results are based on the fall *Letter Names*, *Letter Sounds*, *Phoneme Segmenting* and the winter *Word Reading* benchmark assessments.

- Prop. Aligned = the proportion of TEKS addressed out of the total number of TEKS at each grade
- % = the percentage of alignment

- 13 of 57 grade K TEKS were aligned to the grade K, Letter Names fall benchmark measure.
- Of the TEKS that were deemed aligned to the measure, 11 had *one* rater indicate it was aligned, and 2 standards had *both* raters indicate it was aligned.
- Overall, the average strength rating across all TEKS aligned to the measure was (14.5/13) 1.12 on a scale of 0 to 2 where: 0 = *not aligned*; 1 = *somewhat aligned*; and 2 = *directly aligned*.
- Average strength rating for individual TEKS that were aligned to the measure are shown in the table above.
