

Using easyCBM Within A Multi Tier System of Support

MTSS-RtI Services
Hillsborough County Public Schools

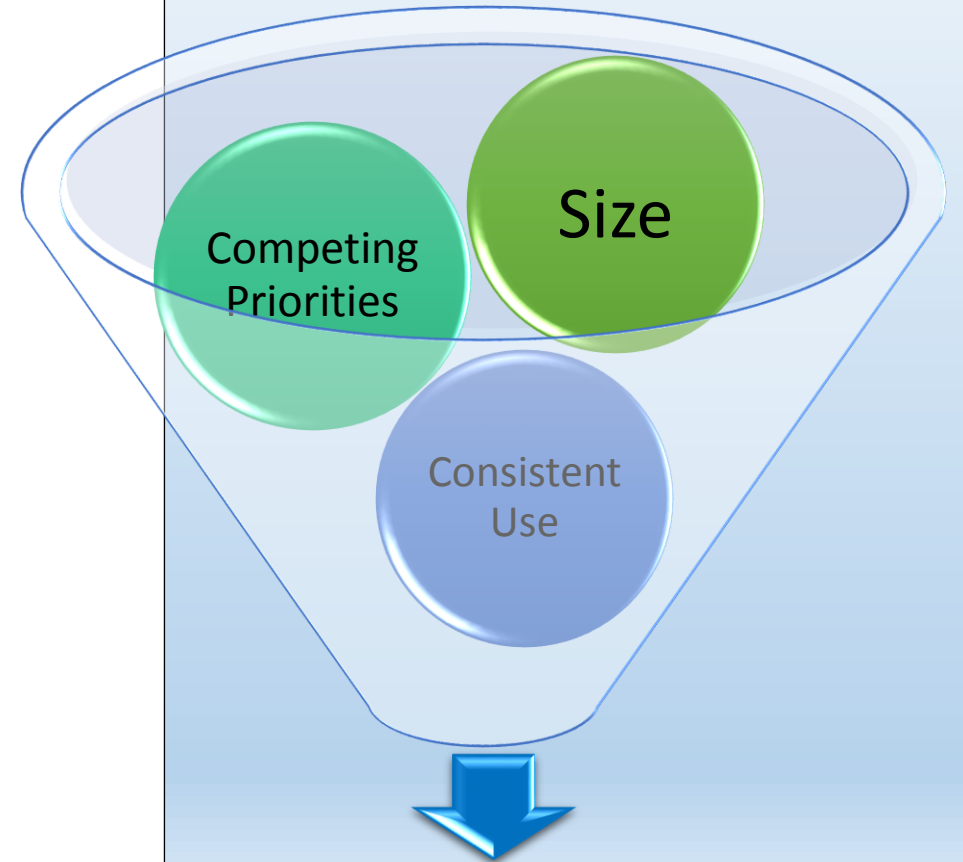

Hillsborough County Public Schools

Total students	206,841
Total certified teachers	15,162
Total full-time staff	25,170
Number of schools	250

Enrollment, by race/ethnicity

White:	40%
Hispanic:	29%
Black:	21%
Asian:	3%
Students eligible for free and reduced-price meals	57%
English learners	12%
Graduation rate	82.2%

EasyCBM

District Required Assessment Program for Goal Setting and Ongoing Progress Monitoring

Response to Intervention: Decision Making with the Four-Point Method

Response to Intervention: Decision Making with the Four-Point Method

Response to Intervention: Decision Making with the Four-Point Method

MTSS-RtI Intervention Delivery Model Revised **Fall 2014**

RtI framework with a Blended Approach

- Standard Protocol Approach at Tier 2
- 4 Step Problem Solving Process at Tier 3

easyCBM required for monitoring and evaluating student progress across continuum of Tier 2 and 3 intervention delivery

- SMART Goals set across 30 weeks of instructional delivery
- Six week checkpoints embedded for evaluating progress monitoring data
- Good, Questionable, Poor Response utilizing a 4-Point Method

MTSS-RtI Live District Webinars

Addressed use of easyCBM for Data Triangulation
and Applying decision rules

Guided Steps for Improving Intervention Fidelity and Student Outcomes

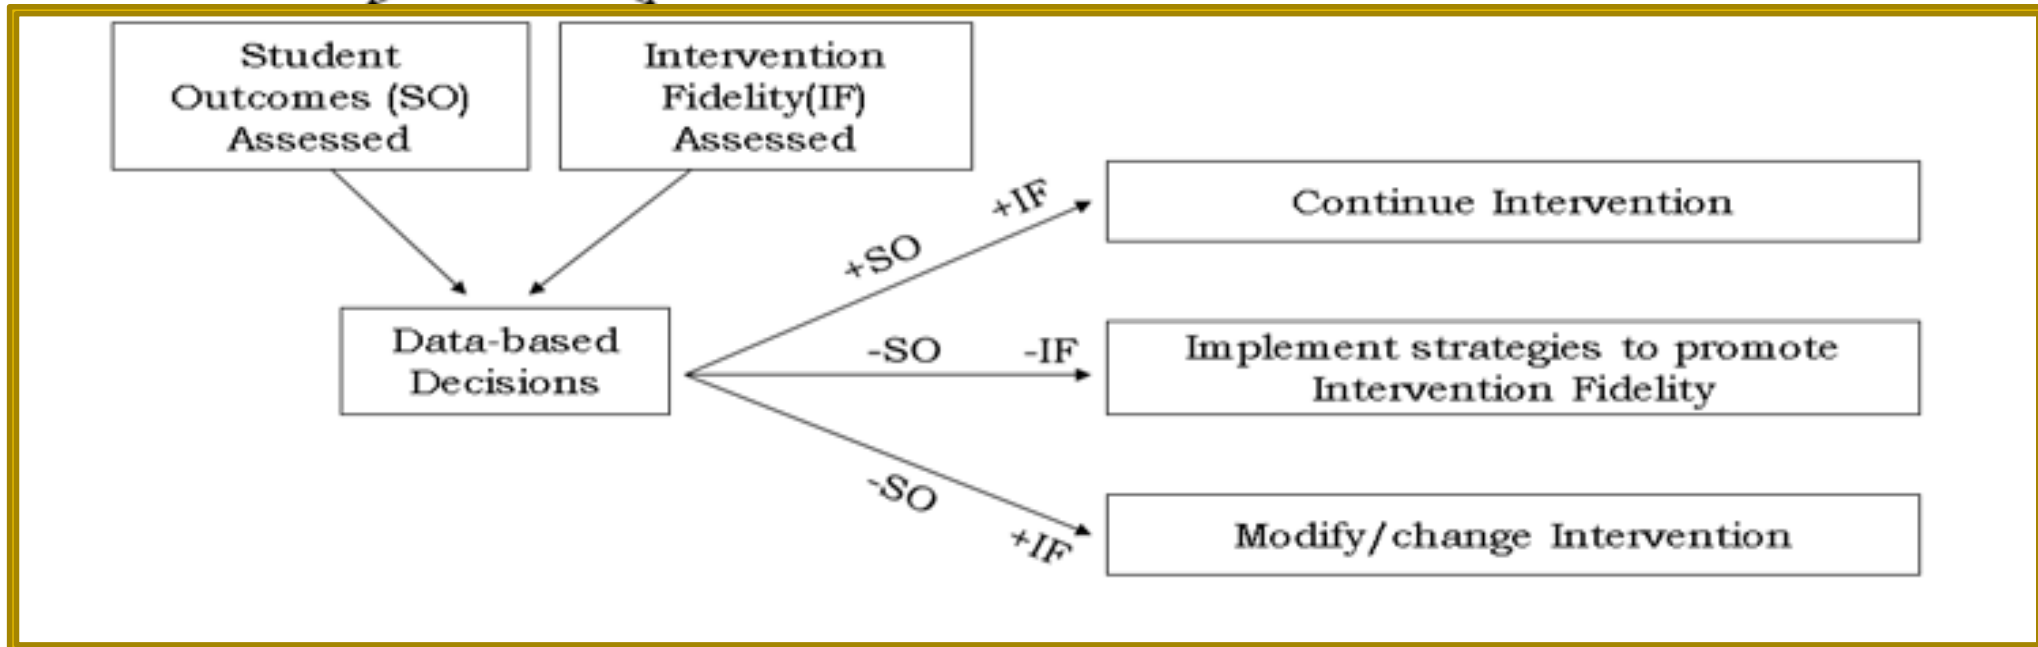

Evidence based intervention linked to verified hypothesis planned

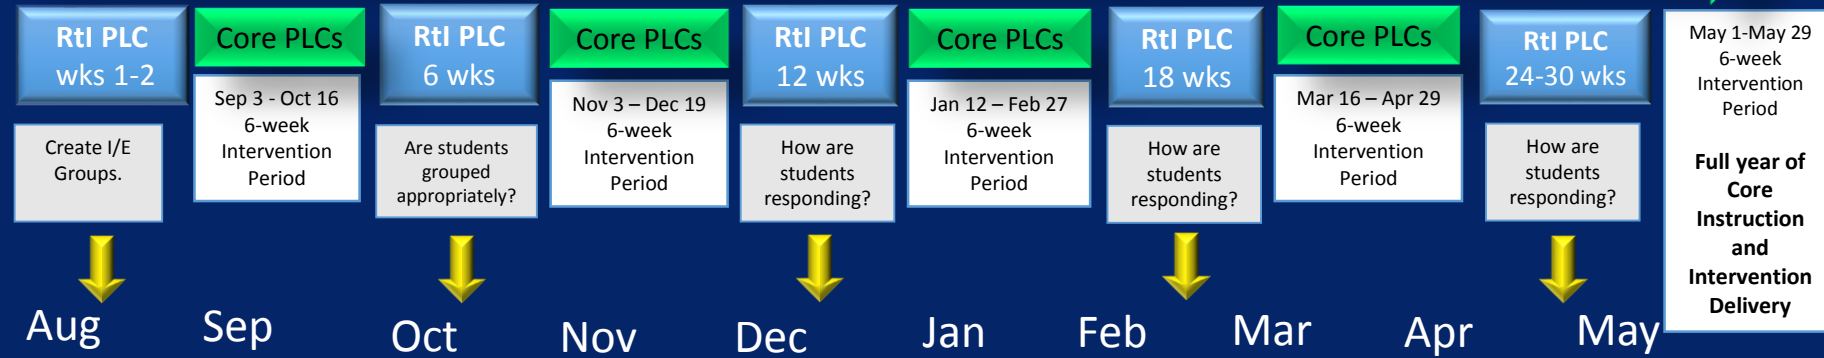

Evidence based intervention implemented

SO = Student Outcomes
IF = Intervention Fidelity

SO = $\geq 70\%$
IF = $\geq 70\%$

Continuous Core Assessments and Instructional Planning

Initial Data Sort

What:
Identify I/E need and form groups

Who:
RLT/PSLT organizes grade level data sources to be further sorted at the intervention planning PLC for I/E grouping

Data Sources:
FCAT/SAT-10
FAIR Classic (AP3)

Adjusted Grouping

What:
Refine and adjust groups through data triangulation

Who:
RLT/PSLT organizes grade level data sources to be further sorted for adjusted I/E grouping at PLC

Data Sources:
Grouping Data- FAIR-FS AP1
Response Data- easyCBM

Response Checkpoint #1

What:
Evaluate response to intervention, adjust groups, and/or modify interventions; assign any newly enrolled students to an I/E group

Who:
RLT/PSLT organizes grade level data sources to be further sorted for adjusted I/E grouping at PLC

Data Sources:
Grouping Data- FAIR-FS AP2
Response Data- easyCBM

Response Checkpoint #2

What:
Evaluate response to intervention, adjust groups, and/or modify interventions; assign any newly enrolled students to an I/E group

Who:
PLC interventionists with support from PSLT Liaison/RLT will analyze graphed data from intervention groups

Data Sources:
Response Data- easyCBM

Response Checkpoint #3

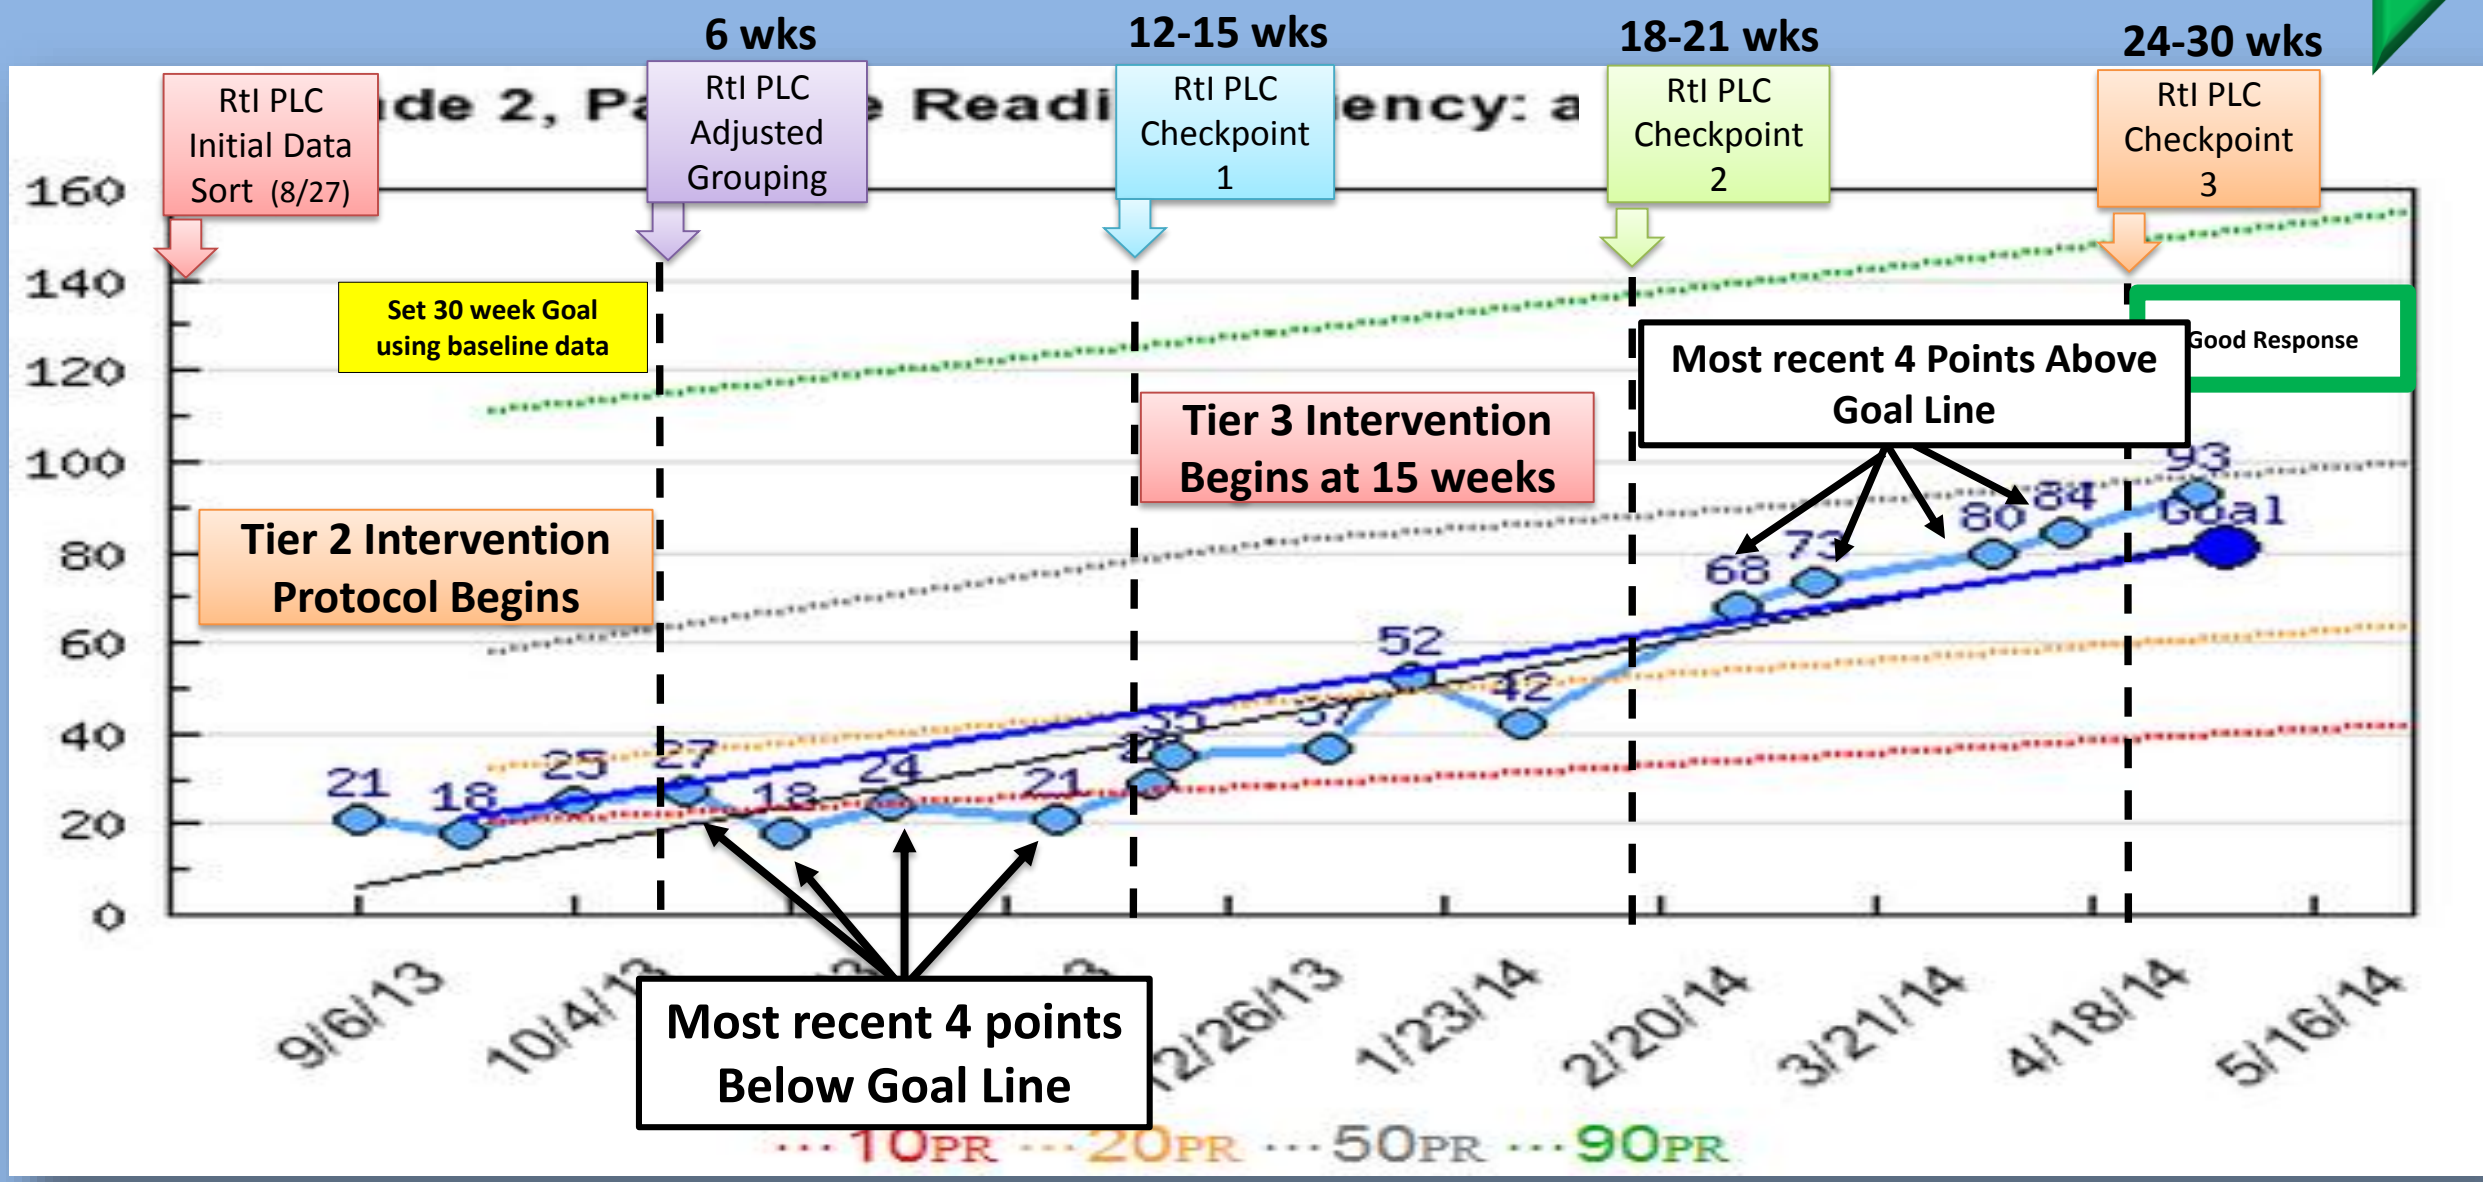

What:
Evaluate response to intervention, adjust groups, and/or modify interventions; assign any newly enrolled students to an I/E group

Who:
PLC interventionists with support from PSLT Liaison/RLT will analyze graphed data from intervention groups

Data Sources:
Response Data- easyCBM

Core PLCs review core assessment data to determine students response to core instruction and implement core instructional strategies.

30 week Continuum of Intervention Delivery and Data-Based Decision Making within a Blended Model

Triangulating Data to Improve Data-Based Decision Making

Data Source 1

SAT-10 Reading Comprehension: 30 th %ile 2013-2014		FAIR "Classic" AP 3 PRS Below 2013-2014
Below Expectation	Significantly Below Expectation	Below Expectation
Reading Comprehension	Reading Comprehension	PRS
16-30 th %ile	1-15 th %ile	Match to enhancement group. enhancement or enrichment

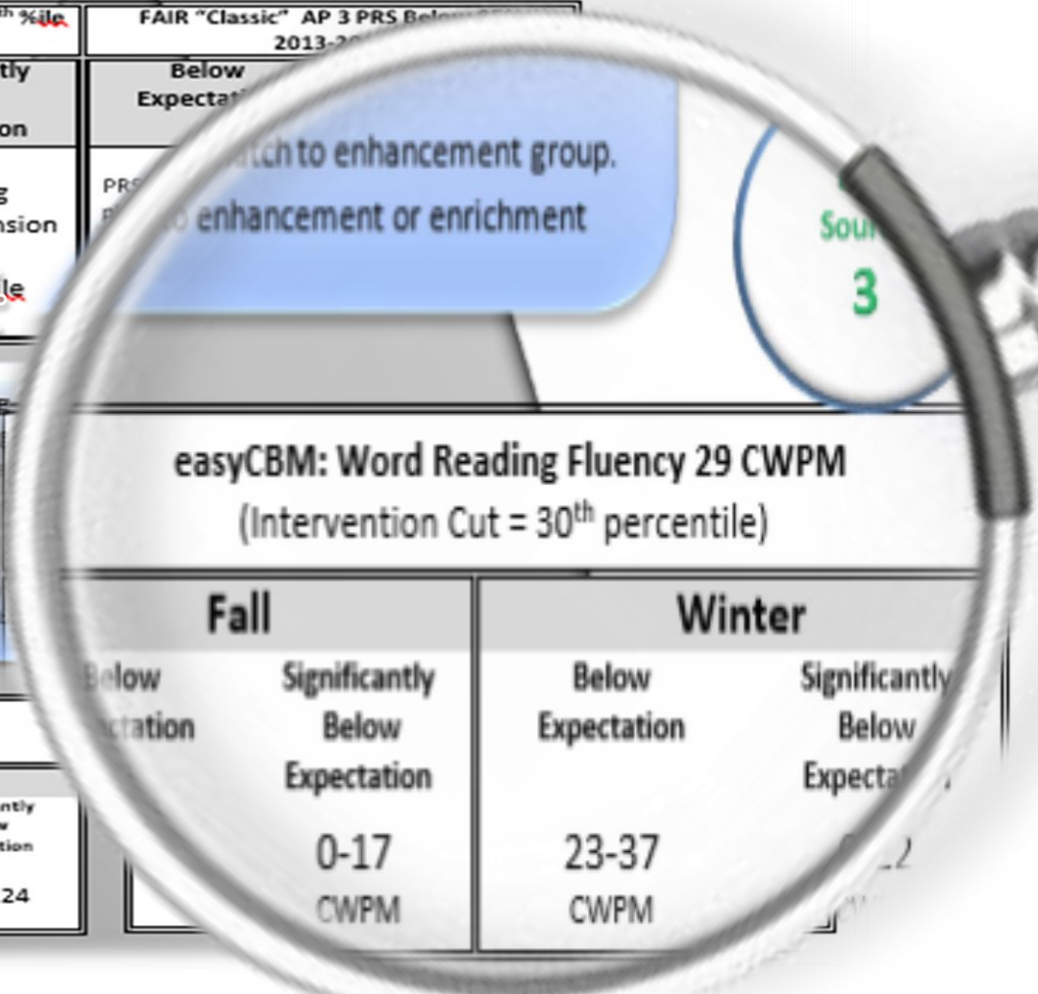

Source 3

Triangulating
If the student is performing
student display

Determine Level of Support:
Tier 3: All scores fall within the "sig"
Tier 2: All scores are not in the "sig"
Enhancement: if fewer than two a
Enrichment: if all areas are at or ab

Data Source 2

ISIP Overall Reading: Ability Score 224 (Intervention Cut = 30 th percentile)			
Fall		Winter	
Below Expectation	Significantly Below Expectation	Below Expectation	Significantly Below Expectation
216-224	198-215	225-231	198-224

easyCBM: Word Reading Fluency 29 CWPM
(Intervention Cut = 30th percentile)

Fall		Winter	
Below Expectation	Significantly Below Expectation	Below Expectation	Significantly Below Expectation
0-17	23-37		
CWPM	CWPM		

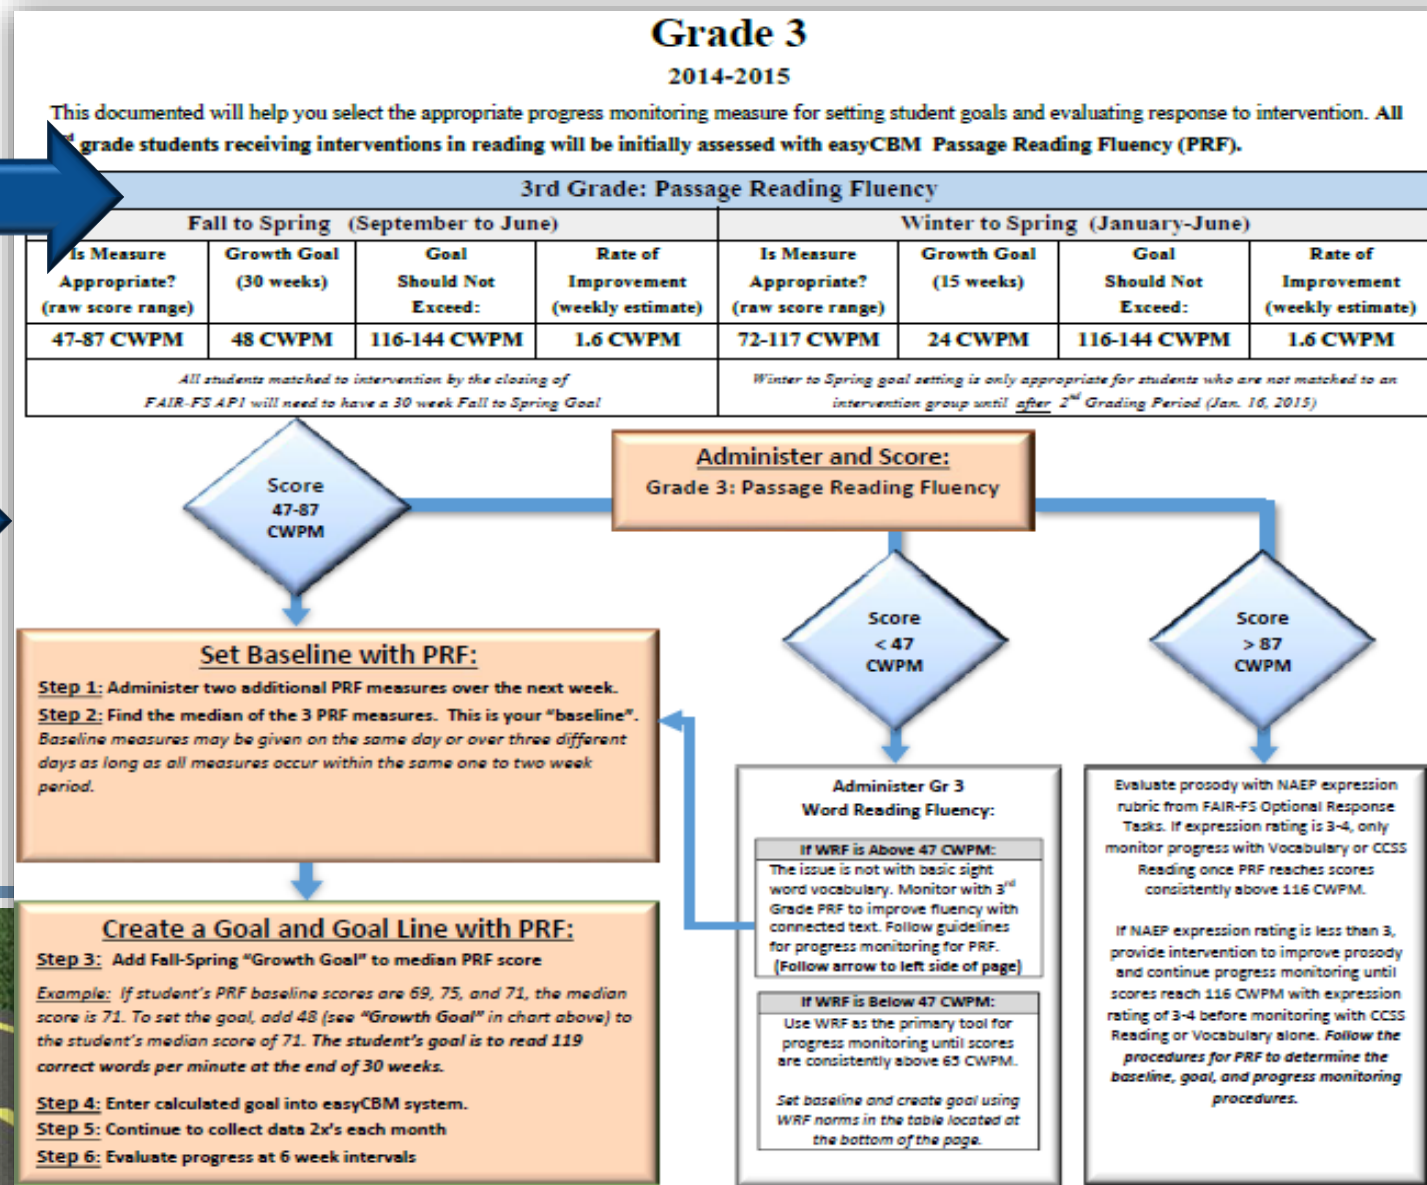

Establishing Standardized Procedures for Goal Setting

Begin Here

Administer and Score Measure

Find the diamond that corresponds with student's score on the first measure.

Follow the arrow to determine next steps for that student.

Utilizing easyCBM to Apply Decision Rules

Four-Point Method

Good

Questionable

Poor

Next Steps:

Building Capacity for Evaluating Response to Intervention

Chart Area

- ≥ 90% Free and Reduced Lunch
- Less than 90% Free and Reduced Lunch
- Area IV Average % of Staff Logging within last month (40%)

Next Steps:

Building Capacity for Evaluating Response to Intervention

- Provide mini-professional development modules posted within the easyCBM icon of our district's internal site
- Implement easyCBM Train-the-Train model Reading Coaches, School Psychologists, and Child Study Team Chairs focused on goal setting and evaluating response to intervention
- Continue to improve data literacy and buy-in for CBM among key stakeholders through implementation of newly revised 2014 HCPS intervention Delivery Model
