ASSESSMENT DESIGN/DEVELOPMENT EXPERIENCES (4)

2014-present

Learning Receptiveness Assessment (LRA)

University of Oregon, Eugene

Designer, developer, and item writer of touch-based Android tablet assessment to measure preschool and kindergarten “learning receptiveness” using a working memory performance task, emergent literacy (book and print knowledge, letter name and sound recognition, and phoneme sensitivity) and early math (shape and pattern recognition, number and counting knowledge, and calculation) early academic measures, and a classroom behavior rating scale. This six time- point screening tool is designed to be used across the preschool-kindergarten transition, and includes easily interpretable score reports.

2014

Oregon Extended State Assessment

University of Oregon, Eugene

Item writer for standards-based English Language Arts alternate state test, designed for use with students with significant cognitive disabilities. Constructed items for grades 3-8 and 11, based on Common Core and “essentialized” alternate reading standards.

2007-2009

Florida Assessments for Instruction in Reading (FAIR)

Florida State University, Tallahassee

Director, developer, and designer of the K-12 Florida Assessments for Instruction in Reading, (a 48-measure benchmark, progress monitoring, and diagnostic reading assessment system including phonemic awareness, word identification, oral reading fluency, receptive vocabulary, spelling, listening and computer adaptive reading comprehension measures, and teacher friendly online score reports). Provided psychometric development oversight and field-testing management across three counties, and helped lead state-wide release and implementation.

2000-2004

Reading and Cognition Measures for Assessing Reading Disabilities Risk Among English Learners

University of California, Riverside

Developed experimental short-term and working memory tasks, and designed and developed project-implemented partial credit scoring procedures. Developed Spanish- translated reading and cognitive measures. Produced classroom and school results reports.

CURRICULUM DESIGN/TEACHER RESOURCES DEVELOPMENT EXPERIENCE (1)

2015- current LRA Greenhouse App Pre-K Teacher Resources

Designed and developed a year-round, 16-unit learning receptiveness generative curriculum (including evidence-based strategy-embedded activity plans and printables, teacher implementation guidance resources and supports, and family letters for strengthening literacy skills and self-regulation behaviors), app-enabled progress monitoring activity engagement checklist, teacher instructional evaluation prompts, assessment coordination and score interpretation guidance, monthly planning tool, and online trainings. All resources are designed to support teachers in taking data-based decision-making steps (assessment, planning, implementation, & evaluation) during the transition to kindergarten for preventing persistent reading difficulties.

PROJECT MANAGEMENT EXPERIENCES (8)

December 2016-current Project ICEBERG Pre-K Implementation

Recruited sites, coordinated participation, and organized, implemented, and evaluated findings from assorted data collection activities (surveys, focus groups, observations, and LRA administrations) conducted at 1 - 4 sites. Supervised the work of six team members to develop, revise, and produce LRA Greenhouse activities, including two graduate teaching fellows (GTF), and a post-doctoral fellow.

April-July 2015 LRA Small Scale Tryouts

Coordinated, collected, and analyzed emergent literacy and math performance data in 3 preschool and kindergarten classrooms to examine the effect of touch screen administration on performance. Supervised the work of the computer programmer.

February 2014 Preschool Behavior Rating Scale Development Observations

Coordinated and conducted structured observations across 4 diverse preschool classrooms for examining behaviors critical for learning and active engagement, as part of the LRA classroom behavior rating scale development. Supervised the work of a postdoctoral fellow research assistant.

Sept 2012- June 2013 easyCBM Growth Study

Hired, trained, and supervised 13 data collectors to assess approximately 1,000 students in grades K-5 across three schools for five time points during the school year. Alternate form, internal consistency and predictive validity performance data collected using SAT-10 and easyCBM vocabulary and fluency measures (letter names, letter sounds, phoneme segmenting, word reading, and passage reading). Trained three data collectors to score and conduct data management activities.

Oct 2011- June 2012 easyCBM Multiple Choice Reading Comprehension Item Analysis

Hired, trained, and supervised the work of 18 teachers nation-wide across grades 2-5 to analyze test item content for identification of literal and inferential question types.

Oct 2011 – May 2012

RTI Case Study Classroom Observations

Examined bi-monthly kindergarten Tiers 1 – 3 literacy instruction and easyCBM measurement use for determining risk for reading difficulties. Study included in- depth pre- and post- observation teacher interviews with the participating general and special education teachers. Supervised work of a doctoral research assistant.

Oct 2011- Apr 2012

easyCBM Beginning Reading Measures Alignment

Hired, trained, and supervised the work of 23 teachers nation-wide to examine alignment between Common Core English Language Arts standards and easyCBM Kindergarten and Grade 1 Phoneme Segmenting task, and Kindergarten and Grades 1-3 Word Reading tasks.

2000-2004

Reading Risk Assessment Project
Frostig Project
